## Foot Notes:

(A\*\*) Another and scarcely less impressive bull bred at Keillor was Pat 29, by Old Jock I, and out of Favourite 2. He was the sire of Cupbearer 59 and Hanton 228, whose names are found in numerous pedigrees. Page 87

(B\*\*) In 1858 the cow Windsor 202 calved, to Hanton, Rob Roy Macgregor 267, and this full brother of Windsor 221 was the animal Mr. M'Combie selected to succeed Hanton. It will have been gathered from these remarks that Rob Roy Macgregor had not the violent Angus 45 cross. He was used in the herd with much success, and was followed by his son black Prince of Tillyfour 366, who was out of Maid of Orleans 580 (a daughter of Bloomer 201 and Hanton), and also without the Angus 45 cross. Black Prince of Tillyfour is believed to have been one of the most impressive bulls bred by Mr. M'Combie had again gone as far in the direction of line breeding as his opinions on the subject would permit him; and he then thought it advisable to have some more fresh blood. Page 95

(C\*\*) Other sires used were the champion bull Juryman 404, bred in the herd-sire Bright 454, dam Jilt 973; the first-prize bull Scotsman 474, bred at Tillyfour, out of Zara 1228 by Jim Crow 3<sup>rd</sup> 350; the Erica bull Elchies 563, dam Erica 843, sire Juryman; Judge 1150 (who won the gold medal at Paris in 1878), dam Jilt 973, sire Scotsman. Of these sires, the most valued in the herd may said to have been Trojan, Victor, Elchies, Elcho, Juryman, and Judge. Page 215
