1. **Grey Breasted Jock** 113 (2) 1839
Old Favorite (a**)
(a**) Hugh Watson, Keillor, Newtyle, Coupar-Angus, Scotland

Foot Notes:

(a**) Mr. Hugh Watson was born on his father's farm of Bannantyne of Newtyle in 1789. He became tenant of the neighboring farm of Keillor in 1808, and continued there until his death. It is stated that from his boyhood he loved the Angus Doddies, and he certainly lost no time in devoting his energies to their improvement. When he entered Keillor he received from his father six of his "best and blackest cows, along with a bull, as a nucleus for an Angus doddie herd." It is recorded, however, by his son, the late Mr. William Watson, that he was not satisfied with the merits of these, and that "he started in the same summer for Trinity Muir Market, Brechin, and purchased the ten best heifers and the best bull he could procure showing the greatest characteristics of the breed." Mr. William Watson said: "The heifers were black, brindled, and black with brown muzzles and brown streak along their back. The bull was black, and all black my father stuck to, thus working the other colours out of fashion." Pages 53 and 54

Mr. Hugh Watson

His son, Mr. William Watson, says: "The list of awards to my father during his lifetime for various descriptions of stock in England, Ireland, Scotland, and France amounted to upwards of five hundred." The first occasion on which he exhibited polled cattle under the auspices of the Highland and Agricultural Society of Scotland was at Perth in 1829. His first prize pair of polled oxen at that show attracted much attention by their size, symmetry, and quality. Pages 56 and 57. Excerpts from History of Aberdeen Cattle, pub. By London Vinton & Company Ltd. - 1910
