"**Spur Emulous Master** was recognized as a 100% Golden Certified Meat Sire and was the only fourth generation 100% Certified Meat Sire in the world among all bulls of all breeds at the time, being sired by the 100% CMS sire Emulous Master 209." Quote taken from Angus Legends Special Edition Volumes I of II, page 252

**Emulous Master 209** was a 100% CMS sire, sired by the famous 100% CMS sire Emulous Pride 70 known as Big 70, who himself was sired by Emulous Bob of K Pride who was the world's first qualified CMS sire. This gave Emulous Master 209 the distinction of being the first bull in the world at that time of any breed to be a third generational CMS sire. He went on to sire Spur Emulous Master the world's only fourth generation CMS sire and the first Golden Certified Meat Sire in the world.

"**Emulous Pride 70 (Big 70)** was a 100% Certified Meat Sire (CMS) with the distinction of being the only bull in the world of any breed to be both sired by a 100% CMS sire and to have sired a third-generation 100% sire." Quote taken from Angus Legends Special Edition Volumes I of II, page 230

"**Emulous Bob of K Pride** is the only 100% CMS sire of any breed to sire a 100% CMS sire who, in turn, sired a third generation 100% CMS sire. He sired an impressive total of nine sons along with 17 grandsons and 17 great-grandsons who each qualified for the prestigious CMS designation." Quote taken from Angus Legends Special Edition Volumes I of II, page 196

Hugh Watson, Keillor, Newtyle, Angus, Sct

#### Foot Notes:

(A\*\*) Another and scarcely less impressive bull bred at Keillor was Pat 29, by Old Jock I, and out of Favourite 2. He was the sire of Cupbearer 59 and Hanton 228, whose names are found in numerous pedigrees. Page 87

(B\*\*) In 1858 the cow Windsor 202 calved, to Hanton, Rob Roy Macgregor 267, and this full brother of Windsor 221 was the animal Mr. M'Combie selected to succeed Hanton. It will have been gathered from these remarks that Rob Roy Macgregor had not the violent Angus 45 cross. He was used in the herd with much success, and was followed by his son black Prince of Tillyfour 366, who was out of Maid of Orleans 580 (a daughter of Bloomer 201 and Hanton), and also without the Angus 45 cross. Black Prince of Tillyfour is believed to have been one of the most impressive bulls bred by Mr. M'Combie had again gone as far in the direction of line breeding as his opinions on the subject would permit him; and he then thought it advisable to have some more fresh blood. Excerpts from History of Aberdeen Angus Cattle, pub. By London Vinton & Company, Ltd. 8, - 1910

**Emulous 7000** (3-15-1956) "The first Certified Meat Sire (CMS) among all breeds and the breed's one-time world record-gaining bull." "With a 95% CMS recording, Emulous 7000 was the only bull to qualify in the first year of the CMS program, a distinction that many breeders of various breeds were seeking." The same sire line as Emulous Bob of K Pride from Emulous 700 back. Quotes taken from Angus Legends Special Edition Volumes I of II, page 168.
